DW1000 IC RoHS COMPLIANCE STATEMENT

As a fabless company Decawave confirms RoHS compliance via our supply chain partners. Please see the below statement which confirms that the DW1000 IC meets the RoHS 6 requirements under RoHS2 Directive 2011/65/EU

eSilicon Corporation

2130 Gold Street
Suite 100
San Jose, CA 95002
www.esilicon.com
(408) 635-6300

Customer Name/Address Decawave Limited Adelaide Chambers, Peter Street, Dublin 8, Ireland	Date 18-Feb-2016
eSilicon Part Number ECW645228C-1N/ ECS645228E-1N/ ECS645230E-1N	Quantity All
Customer Part Number DW1000/ DW1000A	eSilicon Lot Number All
	Date Code All

eSilicon has done the following to confirm that the products listed above (the "Products") meet the RoHS 6 requirements under RoHS2 Directive 2011/65/EU or have been classified to meet these requirements under applicable EU exemptions:

- eSilicon has confirmed with its suppliers for the Products, through lab reports and certifications provided by the suppliers, that the supplier's process is free of lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyls (PBDE), Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP). Copies of these lab reports and certifications can be made available to eSilicon customers upon request.

eSilicon has not performed any of its own testing of the Products to independently verify the statements made by its suppliers or the lab reports and certifications provided by them.

eSilicon's statements in this document do not extend to, or apply to Products subjected to unintentional contamination, misuse, neglect, accident or improper installation, or to use in violation of instructions furnished by eSilicon or its suppliers. Furthermore, this document is for informational purposes only and does not modify, alter or change the terms of eSilicon's agreement(s) with the customer listed above or any other documents that govern the business relationship between eSilicon and such customer.

About DecaWave

DecaWave is a pioneering fabless semiconductor company whose flagship product, the DW1000, is a complete, single chip CMOS Ultra-Wideband IC based on the IEEE 802.15.4-2011 UWB standard. This device is the first in a family of parts that will operate at data rates of 110 kbps, 850 kbps and 6.8 Mbps.

The resulting silicon has a wide range of standards-based applications for both Real Time Location Systems (RTLS) and Ultra Low Power Wireless Transceivers in areas as diverse as manufacturing, healthcare, lighting, security, transport, inventory & supply chain management.
